## **Das Gewächshaus als Großterrarium für Wasserschildkröten der gemäßigten Klimazonen – am Beispiel eines 12 m<sup>2</sup> großen Gewächshauses für drei Schnappschildkröten (*Chelydra serpentina serpentina*) in Nordrhein-Westfalen**

### **A greenhouse as large-scale terrarium for aquatic turtles of temperate climates – exemplary at a 12 m<sup>2</sup> greenhouse for three snapping turtles (*Chelydra serpentina serpentina*) in North Rhine-Westphalia, Germany**

#### **Abstract**

Building a green house for snapping turtles is described. All materials are named and problems are mentioned. This green house is only usable for the active period of the turtles because it's not save for overwintering. The pros and cons of such a greenhouse are considered.

#### **Key words**

Testudines: Testudinidae, *Chelydra serpentina serpentina*, keeping, green house
