Regenvorhersage einer *Geochelone chilensis* – Beobachtungen an einem außergewöhnlich alten Weibchen

Predicting rain by a *Geochelone chilensis* – Observation on an extraordinary old female

Abstract

We describe a *Geochelone chilensis*, kept under semi-natural conditions in Paraguay. The tortoise showed astonishing accuracy in its capacity for predicting rain, as evidenced by changing its behaviour.

Key words

Testudines: Testudinidae, *Geochelone chilensis*, Paraguay, behaviour, prediction of rain by changing behaviour
