## **Zur Aufzucht von Landschildkröten: „Überwinterung“ subtropischer Landschildkröten, die keine Winterstarre halten**

### ***Raising tortoises: „Overwintering“ non-hibernating subtropical tortoises***

#### **Abstract**

After a short description of different climate types of the countries of origin, we present different successful strategies how to provide tortoises in central Europe with sufficient climate conditions, especially regarding the alternation of warmer and cooler periods, by keeping them in indoor and outdoor enclosures.

#### **Key words**

Testudinidae, keeping in captivity, climate conditions, overwintering
